

Sunset Road Condominium Laundry Room Rules

- ❖ DO NOT start a load of laundry if you cannot complete it within the time it takes to wash and dry the load.
- ❖ DO NOT leave any items in the laundry room overnight.
- ❖ Clean the lint filter and remove any dryer sheets from the dryer when you are done.
- ❖ Leave the door of the washer OPEN when you are done. This prevents moisture buildup and the potential for mildew inside the machine.
- ❖ In the event the facilities are being used at the time you wish to do your laundry, wait until the machines have *finished* their wash or dry cycle. If the current user does not report to the laundry room within **15 minutes** of the cycle ending to retrieve their items, you may remove any articles from the washer or dryer and use the machines.
- ❖ DO NOT remove items from a machine that is currently running.
